Marine Corps Mobilization Processing System (MCMPS)
IA Cap Management Module
Training Session: Introduction

ideamatics®
INCORPORATED

Problem Overview

- Individual Augmentation Management
  - Fiscal Cap Instituted
    - Commands Allocated Share of Cap
    - On-hand Constrained by Policy
      - “High Road” Approach
        - Needs Identified by Commands
- Spreadsheet ‘Hell’
  - 21 Spreadsheets, 3 Tabs Each, 27 Elements

Solution

- Marine Corps Mobilization Processing System (MCMPS) – Operational System as Base
  - Direct Interface
- Create Web-based Add-on Module
  - Web Concept Validation
  - Quick Implementation
  - Centralized Database
- Import Current Initial Spreadsheets

1364 Beverly Road, McLean, VA 22101

MCMPS IA CAP Management Module Solution

- Microsoft .Net Technology Used by USN
- Host Server at IDEAMATICS
  - Existing USN/USMC Test Environment
  - Upgraded system based on anticipated increase in users
  - Upgraded to https for added security in addition to user login restrictions – first time log in from computers can load certificate to speed access
- User Admin at MPP-60

Data Reconciliation

- Initial Load from IA Spreadsheets
- Adjustments made by MPP-60 may highlight to Commands several ‘discrepancies’ from data they submitted in initially.
- Error report will be forwarded to all AOs for those records that need corrections based on business logic provided by HQMC – e.g., date sequence errors.

Training Slides Notes

- Note that data in training slides is ONLY test data and is not accurate in regards to GFCs and MARFORs
- Actual screens will be slightly different on production version to be released on Monday 14 July
- Recommend users review training sessions in proper sequence.
- There are 6 separate Training Sessions.

Training Sessions

- 1 - IA Record Search and Browse
- 2 - IA Record Selection for Data Entry/Edits
- 3 - IA Record Data Entry/Edits – Marine & Order Info
- 4 - IA Record Data Entry/Edits – Billet and Demob Info
- 5 - Report Selection and Generation
- 6 – HQMC Approval and Orders Mod Process

Log In Procedures

- User accounts provided to IDEAMATICS by MPP-60
- Default passwords will be provided to commands
- User authorities are based on ‘roles’ assigned by Commands and MPP-60
- After certificate users will see the login screen

Roles

- Full Access – Limited to HQMC:
  - Edit jurisdiction to ALL IA records.
  - Can add IA records
  - Can add & manage application user accounts
- Action Officer – Limited to HQMC
  - Edit jurisdiction over IA records for the MARFORS/Commands they are assigned.
  - Can add IA records
- Orders – Limited to HQMC
  - Edit jurisdiction over all IA records.
  - Can only edit: EAS, End of Orders Date, and Orders Modification Status

Roles (con't)

- MARFOR Data Entry
  - Edit jurisdiction over MARFOR IA records associated with the user's account based on MARFOR
  - Edit MARFOR information
- Data Entry
  - Edit jurisdiction over IA records associated with the user's account based on MCC

- This concludes Introduction
